(a) Distinct quantile and moment scales
First-click time τ
Monitoring strength d
Median
Mean
Mean $\propto d^{-3/4}$
Median $\propto d^{-1}$
(b) Kernel already contained in Ref. [1]
$d^{1/4} S_d / |\psi_0(0)|^2$
$u = \sqrt{d}\,\tau$
Quartic, $d = 10^5$
Known boundary kernel
Gaussian control
